### Motion Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms.

### Door & Window Contact Detectors

These monitor the opening of doors, windows, cupboards, drawers etc. Visible or hidden/covert versions are available in 3 different colours.

### Wireless Covert Accelerometer

Designed to protect your most valuable possessions, the W-ACC-C is discreet enough to be concealed in or on almost any item and signals an alarm when the object is moved. Available in 3 different colours.

# Detectors

Cover every angle

### Ceiling Mount Detectors

Outstanding detection in a sleek and easy to install housing. The Orisec 360 detectors achieve the ultimate balance between detection performance and false alarm immunity.

### Shock Detectors

Shock detectors monitor windows and doors for vibrations caused by attempted break-ins and will activate an alarm before an intruder gains entry to your property. Visible or hidden/covert versions are available in 3 different colours.

### Fire & Flood Detectors

Each model in the Fire & Flood detector range can operate as a stand-alone detector with an integrated sounder. They can also be interlinked so that all detectors will sound in the event of a fire. Furthermore, the detectors can be integrated with all Orisec wireless devices so that activations can be reported via the control panel to a monitoring station or to our mobile phone apps.

### External Sounder

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered.

**Illuminated Sounder**  
For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

# External Sounder

First line of defence

## Wireless Panels

40 zone stand-alone wireless panels. Available with either an integrated keyed keypad or touchscreen. Protect your family, home or business with the most advanced wireless intruder alarm technology.

**ControlLite**  
Simple to use, the ControlLite App offers users full arming and disarming in a straightforward and intuitive format.

**ControlPlus**  
The ControlPlus app gives users complete visibility of their system, allowing total operational control, system event notifications and monitoring from anywhere, at any time.

Apps

Advanced and easy to use.
